

Ecological Modeller/Ecological Modelling Expert (Ref. No 01-08.2017)

RIFCON GmbH is an independent scientific consulting company offering a competent and adaptable service portfolio for the registration of agrochemicals, biocides and biopesticides. Our services range from complete EU registration packages, general consultancy work to sophisticated GLP field studies and various combinations of these two elements.

We pride ourselves in offering high quality services, in full compliance with new developments in legislation, science, registration and field methods. Our scientists and technicians are dedicated to achieving the highest level of quality and efficiency with a view to guarantee professional and cost-effective solutions.

We are looking for an **Ecological Modeller / Ecological Modelling Expert to complement our “Population Modelling and Statistics” team**. Your tasks will include the application of ecological models in the context of risk assessment, analyses and reporting of the results, as well as involvement in the further development of our models.

Your Qualifications

- Background in natural science, e.g. biology, geoecology, environmental science, applied system science or equivalent
- Experience in the application of simulation models in an ecological or environmental context
- Experience in R or a similar scripting language (e.g. Python)
- Knowledge of a high-level programming language (e.g. C/C++, Java) is advantageous
- Experience in applied statistics is advantageous
- Excellent written and oral communication skills in English
- Working in a self-organised and team-oriented way

Contact

If you meet our requirements please apply in English or German and send us your application to jobs@rifcon.de with the **Ref. No.: 01-08.2017** before 29th September 2017 (Cover Letter, CV and Letter of Reference in one PDF document).
