

The Landau Campus of the University of Koblenz-Landau and the Technical University of Kaiserslautern are merging to form a new technical university. We are looking for you to help shape the start of our new university in 2023 at the Landau Campus. You can expect flat hierarchies, a modern infrastructure and family- friendly benefits. Both Landau Campus and the Technical University of Kaiserslautern are attractive employers that offer their employees reliable future prospects.

The University Koblenz-Landau, Germany, Campus Landau, faculty Natural and Environmental Sciences, **iES Landau, Institute for Environmental Sciences** offers the position of a

PhD position - Environmental (Data) Scientist (m/f/d)

starting immediately. The appointment will be limited to a time period of 3 years subject to the German law on fixed-term contracts in science (WissZeitVG). Salary will be according to the German public service salary scale 13 TV-L (65% part time position).

Main Tasks:

The position shall contribute to an existing research team looking into the presence and ecological effects of environmental chemicals on large spatio-temporal scales. We apply data science (e.g., meta-analysis, modelling, geo-statistics, machine-learning) to analyze and link these data, however, we do not require extensive knowledge in these domains. The applicant will work on understanding global patterns and dynamics of potential environmental risks associated with contaminants.

Requirements:

Candidates hold a diploma, MSc or PhD in a topic to ecotoxicology. We prefer experience in data science, preferably in the representation of spatio-temporal environmental data and a good understanding of environmental sciences, particularly those related to ecotoxicology.

We offer:

- Work in a motivated, innovative and target-oriented team
- Project with a global scope in ecotoxicology
- Integration in a diverse and renowned institute for Environmental Sciences
- Salary will be according to the German public service salary scale TV-L E 13 (65%)

Women with equivalent suitability, competence and professional performance will have preference for employment as far as and for as long as an underrepresentation is given. This is not the case if there are such serious reasons of an applicant that outweigh the principle of equality of women.

Applicants with disabilities who have the same qualifications will have preference (please attach a proof).

For further details on the announced positions please contact Ralf Schulz (schulz@uni-landau.de).

Please send your application (including a letter of motivation, a complete curriculum vitae including copies of certificates, a list of publications/presentations) **before 15. August 2022** via email in a single pdf document to **referat-L21@uni-landau.de**. We evaluate incoming applications already before this deadline and continue to do so until the position is filled. Please make sure to mention your name and the **reference number Ld 57/2022** in the subject line of the e-mail.

By submitting your application form, you agree to the internal processing of your data for official purposes in accordance with the privacy protection regulations. We do not send an acknowledgment of receipt. You will receive information about the result of your candidature. Data destruction after the conclusion of the selection procedure is assured.
